

Queen Street Tattoo NC
1616 Queen Street, Wilmington, NC, 28401

TOUCH UP POLICY

****Must be within 6 months and tattoo has to be fully healed. ****

If the fault of the tattoo needing a touch up lies within the artist, then the touch up will be executed by that artist for no additional charge to the client. However, if the touch-up is a direct result of the client failing to properly care for the tattoo during the "aftercare" stage, for example, the artist will be able to tell if the custom picked at, scratched, did not moisturize correctly, the client will have to pay for the touch-up.

We will not be responsible for doing finger, inner lip, and/or hand tattoo touch-ups free of charge, due to the fact that the client is told beforehand that the tattoo will be on a surface area that fades quickly (due to the oils on the skin). If clients would like those particular tattoos to be touched-up, we will gladly do so, but at the normal rate of the original tattoo.
